

VidyoConnect™

An enterprise meeting solution for team collaboration

Business Challenge

Effective brainstorming, ideation, and problem solving need clear communication and solid interpersonal relationships. Today's business leaders want to leverage collaboration technology for top-down alignment and bottom-line results.

Transform team collaboration in your enterprise.

Solution Overview

VidyoConnect™ is a meeting solution for team collaboration that speeds global alignment across your enterprise, allowing for better-informed decisions, faster responses and deeper trust. With a unified user experience across mobile, desktop and conference room endpoints, VidyoConnect delivers the consistency, ease-of-use and rich features that drive adoption.

As leader in value, VidyoConnect provides all-inclusive enterprise-grade video collaboration in any context, from simple browser-based video to desktop and mobile apps, unlimited legacy endpoint connectivity, phone dial-in, and recording. Rapid cloud deployment means faster ROI, and robust cloud services eliminate the tactical burden of managing a video network, freeing IT resources to focus on strategic projects.

Business Benefits

- Create a connected and informed workforce**
 Regular face-to-face communication with employees, partners and customers builds trust and strengthens relationships critical to business success.
- All-inclusive enterprise-grade offering**
 OpEx cost predictability without surprises or being nickel-and-dimed.
- Investment protection for legacy video conferencing**
 Avoid a costly per-port charge when supporting numerous legacy endpoints.
- Streamline advanced workflows**
 Whether it's whiteboarding, controlling a far-end camera, or dialing a legacy video conferencing system directly from your mobile device.
- Risk-free pilot**
 Teams and departments can try the solution before they buy, and don't need to burden IT resources with procurement.

End-User Benefits

- Intuitive and unified UX**
 Users expect the same app experience on all of their devices, and easy-to-use apps lead to mass adoption.
- Collaborate naturally**
 Annotate plans and images; see people, physical prototypes and parts with up to 4K quality.
- Error resilience**
 Unmatched quality over mobile and wireless keeps executives who travel, field sales reps, field service personnel, and anyone on-the-go connected and engaged.
- No hassles**
 No downloads required. Include external meeting participants with the simplicity and convenience of a browser.
- Host up to 200 participants**
 Make top-down communication effective and efficient to quickly respond to changing market conditions and policies.
