

Vidyo for Early Education

What are Your Needs?

- Are you able to provide all of the support services early learners need to begin their education?
- Do you struggle with providing parent-focused training to families with young children?
- Would you like to bring in outside content to engage students in early learning activities?
- Would you like to enhance your early reading and literacy programs?
- Are you able to provide easy access to professional and leadership development and mentoring activities to your early childhood educators?

A quality education begins at birth. Children enrolled in learning programs as early as age 2 can benefit from content delivered over interactive video. Parents of young children can benefit from workshops and access to services that make them active participants in a successful early learning process.

At Issue

The Vidyo Solution

The need for support services provided directly to the early learning community

Connect young children with outside assessors and education specialists such as speech pathologists and others who can identify children in need of special early support. Using Vidyo, educators can connect children with the best outside experts regardless of their location, and save valuable time and expense.

The need for engaging educational content for early learners

Use Vidyo to engage students in simple educational activities through natural, interactive video communication. Embark on virtual fieldtrips from places like the Center for Puppetry Arts, Learning to Look, Discovery with Mrs. Goose and more. All without the logistics and cost issues of traditional approaches.

The need to educate family members to improve the quality of life for the child outside of the classroom

Workshops on nutrition, financial literacy, anger management, and basic job skills assessments can be delivered over Vidyo to convenient locations. Early learning centers can host virtual events for family literacy, connecting remotely with guest authors and with experts to educate parents on the importance of literacy. With Vidyo, providers can reach more students and their families with valuable programs in an affordable way.

The need to provide convenient and effective professional development for instructors

Early Learning educators need access to high quality professional development. Vidyo can help bring these programs into campuses and learning centers so educators can build their skills, focus more time with students, and reduce travel expenses.
